Peanut Balls

- Burst resistant balls
- Deflates slowly if punctured*
- Made from durable, ribbed, heavy-walled, PVC material
- Peanut shape helps control motion in the center of ball
- For inside use only

* Deflation rate is determined by size of puncture and weight of person.

	Width	Height	Depth
7801	68"	24"	1/8"

Thin Exercise Mat

- Designed to help stabilize feet and hands during exercise

8406

Ball Inflation Tape

- This tape is used to measure the outside diameter of the exercise balls during the inflation process. The tape easily attaches to the inflation needle or the plug. This is highly recommended to make measuring the diameter of our brand of balls easy during inflation.

* Included with all exercise balls, but also sold separately
